Attachments: Pesticide Activities For Awareness Week of_Q4 deliverables_09_24_20_PRD.docx

Melissa,

Attached are PRD's edits to this document. AD has quite a few chemicals they need to address so please work with them to make that happen. Thanks!

Charles "Billy" Smith
Deputy Director
Pesticide Re-Evaluation Division
Office of Pesticide Programs

Attached is the big one pager for all of the Q4 deliverables. Alex would like to send this to the Administrator tomorrow. Please send me any comments later today or early tomorrow morning. There are several places where I have entered comments asking if information has been updated.

We won't have FRL numbers until after the quarter ends. We always hope they publish 2-3 weeks after the end of the quarter but we have no control over that.

Great! If you want to do the one pager ahead of time that's ok but let's prioritize the other three that are going Q4 please. Thanks!

That is correct. SF is delayed due to roll out of device stuff right now. Timing is unsure but we are trying to do it asap.

If SF is delayed, then we only need 3, right? Zinc Phosphide, Methomyl/Thiodicarb, Paraquat – right? When is SF going? Will it be Q1?

Subject: RE: Reg Review Q4 Deliverables

Ok if that is the case I'll work just on those Melissa. SF is delayed so we don't need that one right now. We also need one for paraquat. I will work on those 4 and get them up through the chain.

Subject: RE: Reg Review Q4 Deliverables

I think that we only need one pagers for those chemicals going in their own FR which I think are the following:

FRN #4 FRL TBD (Not submitted yet): Contains Zinc Phosphide DRA. Timing: mid- October

FRN #5 FRL TBD (Not submitted yet): Contains Sulfuryl Fluoride Residential Post-Clearance Assessment (and EFED DWA/DRA). Timing: September

FRN #7, FRL TBD (Not submitted yet): Contains Methomyl/Thiodicarb PID. Timing: mid-October

FRN #8, FRL TBD (Not submitted yet): Contains Paraquat PID. Timing: mid-October

I think that we already have these one pagers, as Billy said, but if they could be formatted for the Administrator (a single 1-pager for each chemical) that would be helpful.

Thanks,
Melissa

AD...just an FYI that the IO is asking for one pagers in the Administrators format and you have the Irgarol PID and the chlorine gas ID. Please work with Darlene to get these done asap (request is to send them to the Administrator on Friday so I am trying to get drafts to OPP IO today).

Subject: RE: Reg Review Q4 Deliverables

Yes we can work on getting these into the Administrator's format. We have one-pagers in the package already they just need to be reformatted. You can expect them for the following chemicals...

DRAs: Non-anticoagulant rodenticides (Zinc Phosphide)

Cycoate won't get one and should be taken off the hot pesticides, we were told last quarter that only (I will do this too)

PIDs: 1,3-D, Methomyl & Thiodicarb, Structural Fumigants DRA and PID (Phosphine, PPO), Paraquat, Irgarol
Myclobutanil won't get one and should be taken off the hot pesticides (I will do this)
The BPPD ones will also not get them Methoprene (FWPID), *Paecilomyces species*, *Streptomyces hydicus* WYEC 108, *Beauveria bassiana*, Kaolin, 1-MCP

IDs: Methyl Bromide, Chlorine Gas, Pyrethroids
MCPA won't get one and should be taken off the hot pesticides (I will do this)
The BPPD ones will also not get them *Gliocladium* species, *Coniothyrium* species, Flower Oils, Vegetable Oils, BT cotton lepidopteran

Subject: Reg Review Q4 Deliverables

Elissa/Billy

The topic of reg review Q4 deliverables came up during our general with Alex this afternoon and specifically the status 1-pagers and supporting documents.
Attached/below is the latest hot pesticide list that we share with Alex.
I assume the ones for Sept below are in the pipeline – can you give a status on these please.
Alex would like to have specific ones ready for the Administrator's binder later this week.

DDVP/Naled✓ Non-anticoagulant rodenticides (Zinc Phosphide) Cycloate Chlorpyrifos DRA update	1,3-D Methomyl & Thiodicarb Structural Fumigants DRA and PID (Phosphine, PPO) Myclobutanil Paraquat Irgarol Methoprene (FWPID) <i>Paecilomyces species</i> <i>Streptomyces hydicus</i> WYEC 108 <i>Beauveria bassiana</i> Kaolin 1-MCP	Methyl Bromide Chlorine Gas MCPA Pyrethroids Triazines✓ Pyrethroids <i>Gliocladium</i> species <i>Coniothyrium</i> species Flower Oils Vegetable Oils BT cotton lepidopteran
